

GREAT VALUES AT GRUTT HILL MINE

RAWHIDE, Oct. 3.—It's Grutt Hill Mining in the limelight this time. An average of the eighteen-inch streak of high-grade gives \$688 from a sample assay taken by the Coalition company's assayer. Truly the sensation of the week is the wonderful strike on the Grutt Hill Mining company's block on the Rawhide Coalition Mines company's estate. This discovery is considered about the greatest having taken place in Rawhide. It is simply a wonder and mining men are a unit in so stating.

The find was made on the forty-foot level in the south drift, and about thirty feet in the drift due south from the shaft. In this working they had been getting ore which was sorting \$60 per ton. Last Sunday morning they broke into sulphide ore in the lower left hand corner of the drift. At first the body showed six inches of rich ore; then it widened out to two feet by Tuesday of very high-grade ore, assays from which, taken from a sample clear across the body, gave values of silver \$416, gold \$272; total, \$688. The assays were made by the regular assayer of the Rawhide Coalition Mines company and the samples were taken clear across the eighteen-inch streak. The entire width of the face of the drift is broken down and the ore outside of the rich streak is of ordinary milling grade and the high grade is obtained by sorting.

The management is now sacking one ton a day of the coarse ore, giving one ton of ore out of five, the product sampling \$350 per ton. The fines amount to about one ton daily, assaying about \$160 per ton.

The big discovery was made in the incline shaft sunk early in the season, and from which some immensely rich ore was shipped last January. It is from what has been termed the "glory hole." In some way or other they passed by the rich body at that time, and they went further up on the hill and started another shaft. They also began operating again in the old incline shaft some time ago at a depth of forty feet started the crosscut which has now disclosed the ore of such fabulous value as reported above.

They intend to drift further to show up the body and will continue the main shaft and then crosscut to the vein to get in a good position to open it up and exploit its values.

The Grutt Hill Mining property has always been considered one of the best pieces of ground in this district. They have done a vast amount of work and what is better have fine ore in all the workings. This latest find is apt to make all the boys millionaires. From this time on the Grutt Mining will become one of the principal shippers of the camp and an exceedingly large output of high grade stuff is sure to follow. The finding of such a large percentage of silver in the ore body is something to be congratulated upon, as it is sure to mean continuity and permanence of the vein.

RESOLUTION OF CONDOLENCE.

Tonopah, Nev., Oct. 1, 1908.
At the regular meeting of the Tonopah volunteer fire department held Thursday evening, October 1, 1908, the following resolutions were unanimously adopted and ordered inscribed upon the minutes of this organization, and a copy to be sent to each of his known relatives:

Whereas, It has pleased Divine Providence to remove from our midst Comrade Albert Merten, who has been an honest member of this organization, and

Whereas, By his early demise we feel that we have lost one of our valued and vallant comrades, therefore be it

Resolved, That we fly the national flag at half mast from the fire quarters for a period of three days, and be it further

Resolved, That we extend our heartfelt sympathy and condolences in this their hour of bereavement to the family and relatives of our deceased comrade.

THE TONOPAH VOLUNTEER FIRE DEPARTMENT.
By Jno. R. Schmidt, Secretary.

MORE IMPORTANT.

A village worthies were discussing a mooted point in grammar, as to whether a hen "sits" or "sets" when she takes to her nest.

"Seems to me it's a heap more important," interrupted a bystanding farmer, "whether she 'lays' or 'lies' when she cackles."—Harper's Weekly.

IRRIGATION CONGRESS TO GO TO SPOKANE

(By Associated Press.)

ALBUQUERQUE (N. M.), Oct. 3. Spokane was selected as the meeting place of the seventeenth national irrigation congress, at the close of the sixteenth congress today. Pueblo withdrew at the last moment and the vote was made unanimous. The closing session was made interesting by a strong address by Congressman Joseph Ransdell of Louisiana, president of the national rivers and harbors congress, who urged co-operation between his organization and the national irrigation congress.

WILL NOT EMPLOY ALIENS.

SACRAMENTO, Oct. 3.—The city trustees have ordered an ordinance drawn up for the exclusion of all aliens from positions under the city. It has been discovered that many foreigners are now in the employ of the city, and the trustees are to fill the positions they now hold with citizens of the United States.

TIME TO WORRY.

The autumn air,

How crisp and rare

It seems, but if you're broke

You hate to hear

That winter's near—

And your overcoat in "soak."

ST. PETERSBURG, Oct. 3.—The cholera situation here is improving. The report for the twenty-four hours ending at noon today shows 164 cases, eighty-four deaths and 996 patients discharged.
